

DISINFECT RIGHT - ALL NEW 2021 COVID-19 EDITION

ENHANCED CLEANING & DISINFECTION
CERTIFICATION FOR PUBLIC SPACES

"Using proper disinfecting techniques is one of the best ways to prevent the spread of COVID-19. Yet studies show 96% of businesses fail to use proper techniques."*

PROGRAM CONTENT

- Microbiology, Pathogens & Pests
- The Chain of Infection
- Personal Protective Equipment (PPE)
- Proper Hand Hygiene
- Surface Cleaning, Sanitizing and Disinfection
- Health & Safety
- Laundry & Disinfection
- Handling And Disposing Of Waste

CLEANING & DISINFECTION REQUIRES AN UNDERSTANDING TO BE EFFECTIVE.

Disinfect Right™ teaches recognized guidelines and protocols typically followed in healthcare to the general public through a 24/7 online program. In this 90-minute program, learners gain knowledge of how to safely and effectively use disinfectants to remove microorganisms from surfaces.

CORE COMPETENCIES GAINED

Proper Disinfectant Use

- Required dwell times for kill claim
- Differences between cleaning, sanitizing and disinfection
- Ensuring product is registered with a DIN #
- Reviewing manufacturers guidelines
- Product label requirements

Understand Safety Data Sheets

- Identify harmful ingredients in product
- Required personal protective equipment
- Handling spills and clean up
- Differences between concentrates and ready-to-use
- Product storage safety

Follow Recognized Protocol

- How to break the chain of transmission
- Identify all high touch surfaces in a space
- Cleaning before disinfection
- Daily disinfection requirements
- Common challenges and solutions when ensuring disinfection of a space
- Record keeping
